

Joe Vichot Interviews Alvin Lui on Indoctrination Masquerading as Education

<https://drive.google.com/file/d/1maPP63UKyAkJtz82FcpGskY-cYvl-feJ/view>

My great grandfather ran from communism. The people that dragged him out of his little bakery shop and beat him weren't soldiers. They were college kids, the red guard. And I see that is what they are creating now with a lot of these kids.

Moved from California to Indiana in APRIL 2020 because he did not want to raise his children going to schools with a Marxist transgender ideology.

But he found the same issues in their education in Indiana as California.

6:20--We have to stop weaponizing parents' kindness against their children using their lies that if you don't let a man who calls himself a woman (trans gender) they will kill themselves.

Mutilate children-while they say they are not, when they are, and all the while they say how good it is, that they are doing it, how safe it is; how happy it makes them; that is, the weaponizing of kindness.

It's a mixture of emotional blackmail: weaponizing your kindness, throwing lies, and bunk science.

And the next thing you know. You ask: how did we get here? where we allow minors to sterilize themselves with drugs, getting their healthy breasts cut off, and making them lifelong medical patients. Then calling it love and inclusion.

We got here because parents are afraid to talk about reality.

Stop calling him a her.

It's a guy pretending to be a woman, pushing an ideology. You have to be brave enough to say that.

My organization called "habit" is an organization that helps create tools and strategies for the average parent and legislatures so they can stand up for their children without apologies.

We don't write op eds. We break it down. We isolate it. We break it down to bite sized strategies and resources that the average parent can understand.

More importantly, we give parents actionable tools, and calls to action of what they can actually do.

A transgender cult recruiter comes into Lehigh County and holds meetings. He talks about large issues like China and Biden. Issues that 99% of the population can do nothing about. You spend all your energy getting mad about Biden and China and let's save America. But when asked to do something locally you recoil with fear: well, I don't want to be call transphobic or a bigot.

We don't have the resources or power to change the big issues like Biden or China. If you want to change the country, you have to start at local level.

You have to be brave enough to stand in front of the transgender cult recruiter and call him a he.

And say, you are not welcome here. You are not saying this to our children.

10:52 I can give you the tools that they can't refute. But you still have to be brave enough that they can still take the arrows.

11:58 Joe V: They keep using science as their justification but there is nothing scientific or truthful about their ideology.

13:04 Alvin L. They [Marxists] should feel guilty about mutilating children. How come they don't feel guilty for sterilizing and mutilating children?

13:15 children can't get tattoos until they are 18 or rent cars until they are 25.

13:30 Alvin L: parents tell him often to tell them what to say, give them the tools so they can refute them.

Alvin L says that what parents are really asking him is what can they say that they will not be called a transphobic bigot?

This is the wrong question because they will call you that anyway because it is the only weapon that they have.

14:05; When they call you a transphobe or bigot, your response is not to deny it but to say "I don't care".

If you can not call him a he. If you can not say that children can not consent to puberty blockers or that children are born in the wrong body, there is no such thing as a trans child, It is child abuse.

14:25 if you cannot say those three things, you will lose. This guy will come in and he will take over your community a little bit at a time.

14:40 you have to say this is a man pretending to be a woman.

There is no such thing as a trans child. This is a social confusion.

14:50 It is child abuse to try and convince children that they are born into the wrong body. And to mutilate themselves before they even start their life.

15:14 when you try to explain and justify what a good person you are: I am not a bigot because of x, you lose.

The answer is I don't care. Why do you want to mutilate children?

1520: if you cannot do those three things, then it does not matter what I can give you. Because they will call you a bigot and transphobe. So, if you cannot respond the way I have explained, the tools will not be effective.

16:11 AL: here is your first tool.

Go to courageisahabit.org.

Click <https://courageisahabit.org>

I have curated four companies that will give you statistics that will counter any lies that your transgender cult figures will give you.

The only one that they will throw at you is: if you don't let them mutilate themselves, they will kill themselves.

It's a complete lie. We have two articles under curated data: trans suicide twisted scare tactic parents for ethical care, and suicide facts and myths.

17:15 we have given you three tools to debunk the suicide myth.

17:35 There is a first-time whistleblower. She is a queer person. She worked at the St Louis transgender clinic for four years. And she has blown the whistle on the clinic staff for fast tracking children to drugs and surgeries and very little evaluation. There is a transgender cult recruiter who will try to lie to you and say the children are being evaluated and its based-on science. And there is no such thing.

18:20 There is a radical gender tool kit. You must understand gender or queer theory. It is very sophisticated and manipulative. If you don't understand the theory, they will twist you around with emotional blackmail. They will say that we always existed. And that children know from the age of two they are a different sex etc.

19:00 We share stories on social media. They call these recruiters lunatics, and it makes them feel like they are doing something. You must educate yourself if you want to fight them.

19:41 You must read the items on my website in order to fight back against these recruiters.

20:26 These activists only have two or three talking points. These cult recruiters depend on you not showing up or backing down when they call you a bigot. They are not prepared when you fight back.

20:58 next, click on tools. Study four items. The prior items were other people's tools. This section is our tools. We make these for average listeners:

1—safety and inclusion express;

2-why white kids? From 2016-19 nearly 78% of minors that got double mastectomies were white. Therefore, this is not a social contagion.

3-The next tool is transgender lie #1-The hospitals and clinics are fast tracking kids through this. Ask the transgender activist-why is it ok to fast track a kid to drugs after the first or second meeting?

They say it is safe. And we debunk that it is safe.

4--The fourth item is the heart of the matter-a recent study from the American college of cardiology-puberty blockers and cross sex hormones increase heart failure, heart attacks and strokes in children and young adults. Six times increase in heart attack of the STEMI type. Seven-time increase in a specific type of stroke. Five time increase in pulmonary embolism.

23:35 So when these transgender recruiters come to town and say these medications are safe. Respond by saying get away from that. This is the type of effect they are having on young Childrens' hearts and lungs before they turn 21.

Ask them why do you support this? Don't let them talk about emotions such as empathy and love.

24:24 there is a 4000% increase in children identifying as transgender because hospitals and clinics are fast tracking the diagnosis and treatment of this syndrome.

25:05 Joe V: He summarizes the topic overall by describing the cardiopulmonary complications from the medications used, it shows that the recruiters and the left-wing Marxists don't care about the children.

What is more important is the ideological society that they want to create than the individual that they are damaging. If you have to kill a few in the process, they don't care.

26:00 JV: This is a Marxist ideology that is trying to destroy the family that is centered around a Judeo-Christian value system.

26:50 Alvin L: Our education system has dumbed down so much people's eyes roll and it goes over their head.

Marxism is a way to change a country so that is dependent on government.

27:10: No matter where you go, family is the center of civilization.

And it does not matter if it is Judeo Christian or Islam or wherever you come from. This is not about religion.

Because family is not religious based but rather biology based.

Parents love their children. And we have laws to protect children from parents who abuse them.

27:40 these people are redefining laws regarding safe and abuse. These recruiters always talk about being safe. But they mean in a way different from how you mean it. You mean kids not being around drugs, violence, being beaten, and not having food. They don't mean that.

28:00 AL: They mean that you don't call your son a her, ...that is why I said from the very beginning, you have to be comfortable calling this guy a she.

Because if you succumb to that. And you don't do it for your child. Then now you are abusive. You have to be consistent. You cannot stand up to this and say I am not going to let my child use pronouns. And continue to call this guy a girl. You have to be consistent. and say no you are a man and you are not going to bully me into ? word? reality.

They will say that you called me a her. Now call your son a her. What is the matter? Are you a bigot? And you will be afraid.

You take fear wherever you go.

Courage works the same way. You take it everywhere you go.

29:20 AL: Marxism, at its core, is very simple. It is to create revolutionists out of young people.

Go to Russia, Cuba, China. There is no such thing as a 60 year old revolutionist.

From Mao's red shirts, to BLM, Antifa-all revolutionists are young.

All of the terrorists' communist organizations depend on the youth because the youth are inexperienced, but they have passion.

30:10 But to create revolutionists, you have to separate them from their parents. Because the mom and dad will be able to temper the passion for activism that they have in their life.

They will teach them about what BLM is. And they tell them that you are not going out and throwing Molotov cocktails at a BLM protest.

30:50 But if you can separate them from their parents and make them believe that their parents are bigoted and evil and abusive. Then you can take that child and do whatever you want with them.

31:00 This is why they push sexualization on the children. And then when the parents fight back, they will say that you are unsafe.

If you take the attitude that you don't want your children to feel unsafe, they will take your children. Because you are not standing up for your children. You are afraid of being called unsafe.

31:25 You must be able to say: “No that is your version of unsafe. I think you are unsafe.

31:40 The answer is not that I, as a parent, want all our children to feel safe. The answer is, “No, you, transgender recruiter, you are unsafe. You are the one that wants to create heart and lung problems. You are the one that is cutting off breasts of minors. And you are the child abuser. So, you are unsafe.”

31:55 When parents do not fire back like this, they will come for your kids which is what they are doing right now.

32:00 JV: Locally, a middle school principal kept it secret from the parents that a child wanted to use the pronouns. The principal told the teacher not to tell the parents.

32:24 AL: That is happening in every school district across the country.

32:57 JV: The school is endangering these children. And the parents have every right to know that. Why do these administrators and school boards not do anything about it?

33:12 AL: Because they are doing it on purpose.

33:45 JV Can you expound on the issue of exposing what the teachers are doing with the videos.

33:56 AL: There are many bad actor teachers and school activists. We focus on teachers introducing students to critical race theory and transgender ideology.

34:20 But it is the school counselors and social workers that are the most dangerous. They control the culture of the school. They have access to children who obviously need help. But the school counselors are the ones driving the transgender cult. They are the biggest purveyors of the transgender cult in the schools: school counselors and social workers.

34:43 AL: we did an expose on them called “Behind closed doors”. Go to <https://courageisahabit.org/> and go to school counselors and you will be able to access our expose on them.

34:55 We are showing their own video at their own conference. We attended their certification programs, their webinars. They are training these counselors to push the children towards the transgender cult. They are icing parents out of it. This is not by accident. These are not a few rogue counselors. This is the entire program.

35:35 AL: They are redefining two words: safe and abuse.

35:40 if you redefine the words, you don’t have to change the laws.

35:44 They are pushing policies now in the schools’ policies that can keep transgenders secret from you as a parent because you are unsafe.

If you 100% succumb to it and they put your children on these pronouns, they will force the pronouns on them. And another child refuses to use these pronouns, that child is considered a bully and harasser.

36:30 AL: This is why you have to fight very hard at the pronoun level. Because once they get your child on the pronoun level, its very easy to get them on breast binders, penis tucking etc. And they are able to use this as an argument.

If you don't agree with breast binding, you are unsafe, they will kill themselves. You are a bigot. And then, they push puberty blockers, and you say they are dangerous. They say they are safe. If you don't do it, they will kill themselves.

37:04 You establish that with the pronouns.

This is why you cannot give a millimeter because these people are dishonest.

These people are not here for a conversation or a compromise. They are here for an ideology.

37:25 AL This is a complete social contagion that they are putting through with the school counselors and a school program called social emotional learning, a mental health program. This program changes the culture of schools.

37:47 One of the tenets is inclusion and equity.

And that is the euphemism for bringing in all the pornography and transgender ideology.

37:55 AL School counselors are actively pushing your child to the transgender ideology, pushing pronouns. And then when you disagree you are unsafe and abusive. And if you back off and you don't fight, they will be able to separate you from your child. Now they have policies in schools saying that they don't have to tell you because you are unsafe.

38:23 AI We have gotten here because parents are continually afraid to speak up.

38:35 If you spend time on social media like Facebook and websites sharing articles about China and world economic forum and not fighting at the local level saying there is no such thing as a transgender child. I don't care if you call me a bigot. I am standing up. If you can't do that. That is the reason why it is here.

38:55 Biden and WEF are not coming to your schools and doing this. It's your school counselors, your teachers and school board who are doing this because they know you are afraid because you don't want to be called a transphobe. And you are putting your kids on social media too much.

39:18 AL There are so many things you can do. You can stand up at your school level, you can bounce these transgender recruiters, make sure your children do not have unfettered access on social media.

If you don't keep up with technology, and are afraid of being called transphobe, you don't know social media, you are afraid to stand up at the local level, and then you are focused on all the high level stuff

39:45 AL: That is where they want you. They want you standing up about Biden, Kamala Harris because they know that you can't do anything about them. Focus on the local stuff.

40:02 JV: we are seeing with Republican school board candidates who are afraid of being labeled as extremists. They don't understand that they are using that to shut you down. They think they can compromise in order to make everyone happy. And there is no way you can compromise with a flawed ideology that will only do damage to our children.

They need to go on your site, build up their courage, get the tools, and see the bigger picture that is going on and bring it into their own school district and communities. And they need to see that it will not be solved by just electing another president.

41:30 JV In some states there has been some good work done like in Florida with Governor DeSantis. And Tennessee has passed some laws against puberty blockers.

41:40 AL Indiana has passed a similar law. Also, Oklahoma and Mississippi have passed laws. This legislation is important. And are largely pushed by grassroots parents. This is the kind of work that I am talking about. It can be at school level and legislature level. These parents have to walk through the line of activists and be called bigots, spitting at them, screaming at them when they are working with the legislature. To get these things passed

42:25 AL These legislations are not being passed by brave politicians but by average people that have taken a ton of arrows.

43:20 AL I know just about every group of average people in the different states who have pushed the legislation through. They have taken death threats; you name it they have taken it.

45:10 AL: when you get called bigot, transphobe, you know you are on the right track and keep going until they get nastier! Because the nastier they get the more they are afraid of you.

46:00 if we put out a tool and get a ton of an avalanche of hate, bigots, transphobes, all that stuff, we go, perfect. We are going to keep driving that. That is the tool that I will keep driving at like transgender line number 1 and the safety exclusion express.

Oh my God! The amount of hate we got from that. That hurt. We are on the right track.

46:28 AL: They do not want us to teach parents that the hospitals and clinics are just giving out puberty blockers within six or eight hours of just meeting the kids.

They want to keep telling the lie that the kids go through months and years of therapy before we give them the blockers. We give them that tool and say, no, sit down.

46:51 They hate that that tool is out there because we curated all the hospitals and clinics that we found were doing it right away.

47:09 AI That is why I started this whole podcast off by saying its all about what is in your head.

There is always new information, like that whistleblower. She got a ton of hate and death threats. The transitioners, the kids that are 18-19, like Chloe, you can look her up. Her story is hearty breaking. She did an amazing interview with Jordan Pederson. The hate that she gets.

This is why I say if you ask me for a tool and your idea is tell me what to say so I don't get the hate in response. I tell them that they are on the wrong track.

48:07 JV: This sums up the whole podcast. A lot of people are looking for what to say when they push back [against the transgender ideology] without getting the hate in response. And that is impossible. You cleared that up and gave us two things to work on and helped us build up our confidence and courage. And from there, build our confidence using your tools as a way to communicate to these people.

48:45 JV And with this seminar coming up we can get a few people up to speed. The seminar will possibly attract people interested in transgender not necessarily people who want to challenge it. And that is probably what this transwoman expects. So if we do have a group that goes there and confronts her with the tough questions and the truth and see what comes out of that will be a great experience.

49:23 AL Your confronting this guy getting it out on social media; getting it in a newspaper or radio or something to just get out these facts that these transgender cult recruiters are coming in to try and influence your children. Here is what puberty blockers and sex hormones do. And then read out the stuff like that.

49:50 AL: your goal is for the transgender cult recruiter to come into town and get like 5 people in attendance. If you have a lot of people show up, you have a bigger problem in your community. That means that the transgender rhetoric has emotionally blackmailed enough people that they feel that they have to go and support this.

50:50 AL: This transgender cult recruiter has every right to hold an event.

51:40 However, you want to show up before and during the event and say here are the facts of what this stuff does to children. Why do you support it?

You keep saying its about killing kids. The study was based on 27 kids already in the clinics. It says 40% of the kids killed themselves. Where did that study come from? You want to call that out. This is what happened to the transitioners.

Once you get that stuff out and make it uncomfortable. The recruiter will not come back. He only comes back if he can say he has a magical wand you are a transphobe and a bigot and you stand down. He feels power.

But if you stand up to him offline, online and educate your community that kids are not killing themselves, but this is what is happening to their hearts and lungs. Here are the pictures of the mutilation surgeries of the kids. Look at all the scars of mastectomy surgeries. 13-16 is awful. Make them own up to it then the community will say this is horrific.

53:00 al if you go to our <https://courageisahabit.org>

we post pictures of the double mastectomies.

Nobody can look at that and say that is love and inclusion. It is barbaric it is modern day child sacrifice.

We have to be brave enough to say this is child abuse.

Make the recruiter say I support this for kids. Then everyone in the community should get up and leave the meeting.

We must say I do not support medical sterilization of children and double mastectomy scars. If the recruiter can't say that then you have neutered them.

54:00 JV We should wrap it up then. We will stay in communication as more information comes out. And I encourage those who watch this podcast that they go to your website and review the tools before they attend the webinar or seminar on how to confront this and go to <https://www.usacitizensnetwork.com/>

Also, we will have more information on the seminar and if you want to go to challenge and step up and protect your communities and schools we recommend you do that.

54 :57 <https://courageisahabit.org>

is a nonprofit every dollar goes back into these tools. We spend a lot of hours going through the new tools to ensure that no one can refute you. Any support you give us, whether sharing our tools, or our website, donations go right back to our team because we want to make sure that our content is world class. And we are learning and continuing to get better with your help, thank you.
