

Beginning of part 3 of 3 parts

00.00.00.00 Sara-calling me transphobic shows that person is not really about taking over who we stand for

00.00.28.20 joe V-BLM

00.00.32.12 "and we have some phenomenal people who stand up to BLM and black people like Clarence Thomas are criticized because he is conservative and says that black people are not always victims.

00.01.17.10 joe v-our society is based on a merit society and not handouts. We are not systemic racist country.

00.01.32.17 Joe V other examples-Candace Owens, Lee Elder, and others when they speak out are attacked by a Marxist leftist organization.

00.02.20.26 sara-BLM riots-no black people there but white were there to save black people.

00.02.55.22 sara-like the trans community-I get called transphobic from a progressive who is a straight white man. Who are you fighting for?

00.03.23.26 Joe V other examples-Candace Owens, Lee Elder, and others when they speak out are attacked by a Marxist leftist organization.

00.03.28.15 joe v-help with finances

00.03.59.00 joe v why do the lesbians and the trans allow the Qs.

00.04:20.02 Joe V-the rainbow flag-show pride to now just a radical political statement.

00.04:47.11 sara separate the progress flag from the original one

00.05.05.05 sara-the flag does not stand for what I stand for and it was developed by a pedophile; I only like the flag that says don't tread on me.

00.05.23.0 sara the flag is an ideological political statement.

00.05.28.21 sara I don't look forward to pride month the corporations want to virtue signal the community; give CEI and EFG score; this is a social credit score.

00.06.46.08 sara last year's pride went off the rails with the first-time showing kids drag queens; I am going to put a ton of content out showing the T, Q community has taken over.

00.07.30.24 joe-do the drag queen stuff in Mardi Gras leading up to Ash Wednesday-the time going off the rails-and recover into a God-fearing person.

00.08.37.10 sara-the community has all of its rights that it fought for; drag queen can be great just not around kids.

00.09.02.07 sara why push in front of children-you can have kids or kink at pride not both;

00.09.33.04      Joe v -the kink is taboo; we do sin and have these fetishes that we struggle with; but we don't say this is the way it should be.

00.10.25.21 Sara-whatever you want to do as adult; sexual kink should not be in open where kids are present.

00.10.51.16      joe v -what we want to do vs what we should do-

00.11.05.22      joe v -what we "ought" to do. Our truth that kept our society together regardless of our differences with race or religion or male female differences.

00.11.49.01      joe v -we kept saying "they" -who is "they" and how should we engage the enemy and what their motive is because "they" might be us. "They" are those who will not stand up.

00.12.31.02      sara-The biggest "they" is the progressive socialist left. That is the one that has the stranglehold.

00.12.41.15      sara-neo-Marxism is set up into two class systems: the elites and the working classes. We saw this setup during covid where the elites were setting rules for themselves that were different from the rules for everybody else.

00.13.02.02      sara-those that are pushing these things are useful idiots. They are ignorant of what is actually going on. And they think that they are being compassionate.

00.13.22.27      sara-that is part of "they" But the biggest part of "they" are the elites manipulating things behind the scenes. The Bill Gates, the Mark Zuckerbergs, George Soros,

00.13.36.03      sara-the world economic forum -this is the agenda that they are pushing, and they are using; they are buying out activists like antifa. We just saw this in Atlanta where one out of ten that got arrested actually lived in Georgia. And so you see how they are mobilizing activists across the country to enact these agendas. They are manipulating teachers, schools,

00.14.10.0      sara-the one thing the progressive left is very good at manipulating emotions. They will say that you are not looking out for the good of these people if you are not affirming their agenda and pushing queer theory.

00.14.31.13      sara-they, the progressive left, will say you are banning books. The media is complicit as well. I saw the? News lies about a bill in Florida and in the same paragraph they fact check themselves. So, bill in Florida said this bill banned providers from giving gender affirming care. The bill said providers may not provide such care. It did not say shall not. The difference between "may" and "shall" is that it is enough to have a full out ban. "May" means it is optional. "Shall" means it would be a ban. So, the media companies are complicit in pushing these lies as well. Like banning books or porn, they are not even trying to ban the books. To ban a book means to get it out of circulation. Whereas all we are trying to do is get it out of kids' schools. You want to go buy it from Amazon, ok. But we do not want it to be easily accessible for children.

00.16.04.16      sara the media is another part of the manipulation, they are another "they", the mainstream media is not pushing that they are evil because they see the right as their enemy. Whatever the right does, they will make up lies. And they will push it that the right is not compassionate. They are trying to ban books and end our democracy.

00.16.34.14 sara-there is a big picture when it comes to, they because independent media is where you will get the most truth. The mainstream media are part of the ESG score crowd. If they do not push the agenda, they get dinged and lose funding. The environmental, social, and governance, ESG, is based off of BlackRock and Vanguard which is all tied to the economic forum. So, there is a higher "they" and there is the "useful idiots they" from the progressive left that just pushes this stuff.

00.17.19.07 joe-and Sara-they are useful to push this agenda, but they are ignorant to what is going on. So can go deeper into Hitler's Germany 1930s and 40s with fascism the young youth back then were "useful idiots". They were manipulated to do what they did. How else can you convince rationally good people to do what they did and the same thing with Antifa. Antifa appears to be disorganized so that they require useful idiots to do what they do. And the people in the schools are ignorant of the big picture and are just kind of going along.

00.18.59.28 Sara-nobody wants to be called a bigot. Most of the good people go along with it because they don't see the actual harm that is being done.

00.19.14.09 joe & sara but the average harm that a person sees when it's done, it is so widespread. It will take generations to be undone.

00.19.15.13 Joe rapping up-trying to understand why this has been done to our kids in this post modern world that we are living in

00.20.38.02 joe-you brought up ESG, Rockwell, these are intelligent people but not good people; it comes back to power; the point is to end our one truth and our God; we are the only country with a constitution that we have inalienable rights by a creator; every other country does not say that;

00.21.22.14 joe-a lot in common-sara links-sara my website sara higdon.com, YouTube twitter& Instagram is Sara Higdon\_ links to some op eds, human events, support my work;
