

Part 2 of 3

0:00:00 staff start using pronouns in school with minors if they express any symptom of gender dysphoria.

0:00:56 hide it from parents.

00.01.09.06 ushered in under social emotional learning.

00.01.54.00 changing your name is significant even without medicalizing your body.

00.02.24.15 by schools keeping this name change from parents a lot happens there.

00.02.35.15 a school in southern Florida hid a child identity gender issues from parents because teachers claim the parents' catholic religion would cause them to be abusive to their children; parents responded that you know nothing about our faith if you would think that.

00.02.56.26 that child attempted suicide twice because of this conflict between the school and the parents and parents are suing them for not telling them.

00.03.03.17 teachers and counselors are not trained therapists; students are not getting mental health counseling.

00.03.25.04 they want your kids to be wards of the state; they think they know better than their parents and want to take all parental authority from them.

00.03.43.10 "Joe Biden said that there is nothing such as other people's kids, they are our kids; they belong to the community which is Marxism;"

00.04.12.10 whoever is in charge decides the way it is going to be.

00.04.20.10 talk about how they institute pronouns.

00.04.51.10 you support outing the kids to the parents.

00.05.26.10 "parents need to know when their kids are having identity issues so they can get them the mental health care that they need -so yes if that is what outing them means, then ok."

00.05.45.00 "if schools think parents are being abusive, they have that responsibility to report, so there is no reason not to report these issues to parents because there is no reason to think that they would be abusive to their kids."

00.06.00.00 Grooming --and adult keeping secrets with children especially a teacher-meets 3 of the 5 traditional behaviors of grooming -this is a red flag.

00.06.26.09

00.06.46.00 I suffered from anxiety my whole life -if my teachers had kept that they were using pronouns to call me that was different from my biological name that increases the anxiety if I am going to a meeting between my teachers and parents and there is a slip up with the pronouns.

00.07.34.00 "Joe V -talk about the "normal" kids who don't want to out their friends who are struggling with identity issues and are afraid that they will slip up with the pronoun use in social situations."

00.08.24.00 Sara H-higher amounts of SSRIs then we ever have seen, since covid Big Pharma has gone from being the enemy to the savior of everything.

00.08.23.00 "SSRIs for anxiety, gender dysphoria we make you a medical patient for the rest of your life, "

00.09.03.23 "Joe V-after they start to use pronouns, keeping these secrets from the parents in order to build this relationship with them, the next thing is they start to act like a boy or girl by using the bathrooms and locker rooms and by doing that you put the stress upon the entire school; "

00.09.59:00 Joe V-a man came to talk about title IX-the activists and the transgender people; they were radical activists.

00.10.41.00:00 "anyone including the entire school board who objected to the use of pronouns or keeping this secret from the parents or using bathrooms, are called bullies, "

00.12.00.00 the stress is put on the child-like the young biological girl who won't use the girl's bathroom until the male who has been reassigned to a female gender finish using the girl's bathroom.

00.12.32.00 Sara H-there is no such thing as a trans child but if there is a gender noncompliant child give them a third bathroom to use.

00.13.04.00 Sara-there should always be a third space in schools or a government building for anyone uncomfortable -you do not even have to be trans-it can be just that you are uncomfortable using the space that everyone else uses.

00.13.58.25 Sara given them the option of a third space, so you don't put it on all the kids to just accept because that is control.

00.14.16.00 Sara title IX the transgender advocates don't want a third space because it is not validating to them.

00.14.46.29 Joe V-real reason the girl has to use the boy's bathroom is that they want to validate because then what they want is validated as the truth.

00.15.18.10 "Joe V-it's the ideology of the teachers, counselors-you must you the boys bathroom if you are a girl and you think you are a boy"

00.16.51:04 cut#1---17:02 shows the cross-dissolve transition in exported final product both have same weight.

00.17.02:10 Joe V The last topic on this part with the title IX-biological men playing in women's sports.

00.18.23:10 Sara -I did an interview with the defense of freedom institute -males taking freedom away from females

00.19.40.16 Sara-many feminists are pushing for biological males who have reassigned their gender to female to be awarded sports scholarships to college that were intended for biological females.

00.20.08.16 Sara-Rile Gaines-a lot of these activists are not trans themselves--antifa and that part of the left-have coopted the trans community because now you can self-ID yourself to be trans -it's the something they did with BLM in the summer of love in 2020-but that required them to get the black community to commit their violence and push their agenda-now they can do it themselves just by self-identifying as a trans identity and pushing that violence at the Rile gains event in San Francisco and the Michael Knowles debate -there are not that many trans people in the crowds-when it comes to leftist activists you can tell who are trans because they want you to know they are trans -they don't want to blend in society which is what transexuals want to do-they want to draw attention to themselves-they get the woke points for it

00.21.42.26 Joe V-the difference between the transexual and the transgender--transexuals are not part of the drag queen show; transexuals want to blend into society.

00.22.28.26 "-----"-tells us more about the differences between transexual and transgender and what is the motive behind this transgender movement."

00.23.06.06 "Sara-Gender ideology is a subgroup of queer theory-John Money was one of the inspirations to queer theory; developed at the Frankfurt school; Judith Butler is biggest proponent of it; it was developed in the gender studies courses in the early 1990s; just like any other critical theory such as critical race theory-it's based on this postmodern neo Marxist idea that there is no such thing as absolute truth; if you take the five tenets of critical race theory and the word ""race"" for ""gender"". it's the exact same thing being pushed in our schools and everywhere around our society; they are trying to force this ideology onto everybody; the third wave of feminism is trying to fight this fourth wave of feminism since its development; "

00.24.36.04 "sara-the tern Trans, the ""T"" in the community was changed from transsexual to transgender in 2013; that was the biggest step that pushed this forward."

00.24.49.01 "sara-Transsexual meant that it was someone who had gender dysphoria, and actually takes the steps to transition. And then just blend into society. Whereas, once you change to transgender,

they coopt it all-they make this umbrella term to include anyone who does not feel comfortable in their biological sex. They were probably trans-and that's why you see nonbinary itself is a postmodern idea because that means there is no absolute truth. There is no difference between men and women. They would like you to say there is no such thing as men and women and that everyone lives somewhere in the non-binary aspect; it's on a spectrum; it's a social construct; that is when they coopted it; the true gender theory is a social construct."

00.25.41.06 "sara-that is also when you saw the ""Q"", which stands for queer. Added to the acronym as well as the T had been. The Q is based on postmodernism, they don't believe in sexuality; so the Q aspect of it is trying to erase the original LGBT. That's why you see its transphobic if you won't be a trans person because if you are a lesbian and won't sleep with a male who still is intact then you are bigoted to transpeople when it goes against their sexuality as a whole; "

00.26.27:00 "sara-the Q is very separate. Many want to separate the LGB from the T, Q. But when you look at the original transsexual, it makes sense that they would want to stay within the binary LGB and the original T. "

00.26.46.23 sara-the transgender movement is what has pulled everything over and they say that you don't have to have gender dysphoria to even be trans. But there is no reason to be trans unless you have gender dysphoria.

00.26.57.19 sara-when you investigate the deepness of the ideology of what queer theory is it makes sense. And that is what they are indoctrinating at a very young age in schools.

00.27.17.27 cut#2 --Joe V and that is why they think they can go back and forth.

00.27.24.12 "sara-the activists will say calling someone a transexual is a slur. Sara has been told that she is transphobic for calling herself a transexual. Sara was placed on the list of more than 40,000 people who have been deemed transphobic. "

00.27.42.00 sara-they don't want us [transexuals] out here speaking. They were able to coopt it so easily because transexuals just want to live their lives. They want to blend into society and not be out there showing who they are.

00.28.10.33 "sara-for them to come out of their ""stealth bubble"", where most people who interact with them in their daily lives might not even know they are trans. So, why would they come out and get hate from the activists."

00.28.30.02 "sara-that is why it is hard for me and Blair White and Buck Angel and quite a few others and say hey we need to come out and condemn this. If we are going to be a trans community, we have to condemn this. All the transexuals have to say this does not represent us and we are seeing more trans people are starting to come out saying we don't resonate with this. "

00.29.01.04 end of part 2 of 3
