Speaker Name	Start Time	End Time	Text
Lindell interview er	00:00:00:00	00:00:28:08	This is the Lindell report, bringing you news combined with hope by offering practical and achievable action points to assist you in defending and preserving faith and freedoms. And now here is your host, Mike Lindell.
Lindell interview er	00:00:28:10	00:00:51:17	Welcome. Glad you are with us here on Lindell TV for the Lindell Report. Mike Lindell will be joining us in just a moment. And we have a very, very important broadcast and historic broadcast because of some very important historic information that was dropped last night. At the end of the moment of Truth Summit by Mike Lindell. Tonight is such a big night.
Lindell interview er	00:00:51:17	00:01:16:05	We are preempting some of our normal programing, and we will have the Lindell report here, but then we will not have the Worldview report by nightly newscast tonight because of so much breaking news related to what came out of that moment of Truth Summit. So beginning at 7 p.m., I will immediately go to Mary Fanning. Mary Fanning will be my guest.
Lindell interview er	00:01:16:06	00:01:36:20	Mary and I are the ones who initially contacted Mike on January 9th. That has to do with the information that broke last night from the platform of the Moment of Truth Summit. Mary Fanning will join me, and then Mike will come back after Mary and I lay down the timeline and the history of how we got where we are, and then Mike will join us around 730 central.
Lindell interview er	00:01:36:21	00:02:06:08	They will be joined by Pete Santelli and Leo Hallman, both reporters that work with us broadcasters and associate producers. Will be with us to comment on what they heard and saw, including Pete Santelli, and his relationship with, Clint Curtis. Then we'll play some video clips I think will shock you as well. All on a very historic information that well, should be rocking the nation.
Lindell interview er	00:02:06:08	00:02:34:00	Frankly, we need to slow it down a little and explain to some people some history. Because as Pete and I were talking last night, and Leo, I said, I don't. We all agreed. I don't fully think everyone understands what just happened. There are a lot of names to keep up with. Lots of information. Tonight, for the next three hours, we will lay out the timeline and the history of what just was revealed last night.

Lindell
interview
er

00:02:34:0	00:02:57:0	
0	2	

Joining us now is the, host of the Lindell Report and the man that put together the 24 hours, 12, two, 12 hour day. So 24 hours. Even with new math, it's still 24 hours of great programing, a historic program, programing from the Moment of Truth Summit from Springfield, Missouri. The man is going on about literally folks, I'm not kidding you.

Lindell
interview
er

00:02:57:0	00:03:00:1	
2	5	

An hour of sleep. Mike, are you still with us?

Mike
Lindell

00:03:00:1	00:03:20:2	
7	1	

Yeah, I'm still with you in, You're right. Brennan. I left, Springfield about 435 this morning. I got to bed around two. I stayed out there with all the people for, I got to know a lot of them. We got to meet them. We're heading, and, they've been out there a lot of the grass roots, and it was just an amazing two days.

Mike
Lindell

00:03:20:2	00:03:57:0	
1	7	

And, It got very emotional for me, which, you're going to talk about the 7:00 hour when you and Mary, springboard that into the, that story, and but I'm, I'll tell you, there was three oh, there are so many takeaways, but very excited on the, four of them. And a quick list before, that, that I think should shock anyone to know that the, the one thing we had all the 50 states showed all the evidence of their states and what their blocks were and everything.

Mike
Lindell

00:03:57:0	00:04:19:1	
7	3	

But I want to talk, why they're putting those up. Because I told everybody you're going to see. So she thinks they're going to shock the world. And I believe we did. Yes, we did. But as you said at the top of the show, the media is silent, brand and completely silent on this. And I believe they're probably silent on these three things.

Mike
Lindell

00:04:19:1	00:04:43:0	
5	8	

One is the importance of cash vote records. That's one. That's a call to action for all of you out there watching or listening. We have it right here on French page. Download the app, go to the website and click on Save My County. And you click on that. It's going to hold. It's going to tell you how to go get your vote records.

Mike
Lindell

00:04:43:0	00:05:05:0	
8	0	

Right up it right up at your county clerk and then, you email them to raccoon and Frank speech.com and we will be able to get down. You know, a nice format for it. So bring it to your county sheriff and, and, get rid of your county commissioner. Get rid of the machines in your county.

Mike Lindell	00:05:05:0 2	00:05:33:2 0	Remember this. Just remember, everybody. September 3rd, 22 months will have passed, and they can go delete everything from the 2020 election. We can't let that happen. And, we're not to let that happen. So, all of you, that's a big call to action. But, we're going to have all of that up here right now. We're getting all of the summit up in, in the order it was played out, and he's just about got that done.
-----------------	-----------------	-----------------	---

Mike Lindell	00:05:33:2 0	00:05:57:0 6	And you'll be able to go there and watch any part you missed. It's going to be awesome. But, I know we're going to have about ten minutes here, so we're going to play the second one. I want to talk about, which is, ran about two weeks ago. I heard of a guy and, I guess I heard about it from Pete Santucci.
-----------------	-----------------	-----------------	--

Mike Lindell	00:05:57:0 8	00:06:00:1 1	I can't remember if I heard it from him or someone else.
-----------------	-----------------	-----------------	--

Lindell interview er	00:06:00:1 1	00:06:03:0 0	No, I think it was Pete, but it's definitely Pete.
----------------------------	-----------------	-----------------	--

Mike Lindell	00:06:03:0 2	00:06:39:1 8	Yeah, he. And he said, you know, hey, this guy's a Democrat. He voted for Biden, and he's been he's, he's very hard Democrat. And he said, this guy invented this sort or the code for the algorithms for the machines. He's the one that did the first one back in 2000 to set the machines at 51, 49 back, there was a very simple algorithm just to steal an election, which we, have reason to believe after hearing all that, that in the very, race, Barry might have won.
-----------------	-----------------	-----------------	--

Mike Lindell	00:06:39:1 8	00:06:41:1 7	We don't know. Now,
-----------------	-----------------	-----------------	---------------------

Lindell interview er	00:06:41:1 9	00:07:06:0 5	Which, by the way, which, by the way, Mike, is very consistent when you start laying these things out with what Bev Harris wrote in her book Black Box Voting that we talked about this weekend at the summit in 2003. She talks about was it doubles some of the leaders a d a bold there were close friends and raising money for George W and Cheney in the hundreds and hundreds of thousands, and one of them writing a letter to folks she reports talking about delivering Ohio for the president.
----------------------------	-----------------	-----------------	---

Lindell interview er	00:07:06:0 7	00:07:22:1 7	So what she was reporting in 2003 sounds like, wait a minute. These voting machine companies, at least one of them seems like they're fooling around with, the election. And now what? You brought out is actually consistent with what we have from other people as well. From 2003.
----------------------------	-----------------	-----------------	---

Mike Lindell 00:07:22:1 9 00:07:44:0 5 Absolutely. And, this guy, you know, that goes back years now, started in like 1998. It's all that was all the genesis. It seems like I mean, you could go back maybe a little further, but, there's Clint says that he, was the first guy that did the source code, to do it. I mean, the algorithm to steal elections.

Mike Lindell 00:07:44:0 5 00:08:08:0 3 And so we're going to talk a little bit, here, and then we're going to play that whole segment tonight. And in the Lindell, this Lindell report, we're going to play the whole segment at the summit. I think it's one of its historical. And then everybody we're going to tell you starting at 7:00, the story of Dennis Montgomery.

Mike Lindell 00:08:08:0 5 00:08:26:1 3 I'm quick, Tom, and I'm going to come on during that. But they, I'll tell you guys, I think this shocked you, Brandon, when I drove in, I didn't tell anybody we were going to do that. And, for those of you out there that you're going to be educated on there starting at 7:00 on Brandon's show.

Mike Lindell 00:08:26:1 3 00:09:00:0 6 But I want to tell you that evidence that I got on the that day in January night, which is for me to never give up of all of the hacking, all 50 states, the evidence that I that I validated for six months that I was attacked and attacked, the evidence I brought to the cyber symposium, and I was physically attacked on the second night and told by my lead leader, my team, a colonel said, you, we have reason to believe they're going to put a poison pill in the data and come in a raid and take everything.

Mike Lindell 00:09:00:0 7 00:09:26:0 3 And, and, we have planes, planes flying overhead of Sioux Falls. And then the media went silent, if, you know, back then. And, so for a year, for a year, we've been getting ready where the timing would be right. And you're going to find out when you talk to, that from the 7:00 show on what we revealed at that, house tonight.

Mike Lindell 00:09:26:0 3 00:09:44:1 2 Those shock it's going to shock you. It should have shocked the nation. They should all be talking about it. But, we'll tell the story then. But anyway, that's this, the whole summit brand. Even Steve Bannon said he's now a machine guy. You know, I'm not a machine guy, but I know there was fraud and all this stuff.

Mike Lindell 00:09:44:1 4 00:09:47:0 8 Now, he said straight up the machine guy.

Lindell interviewer 00:09:47:1 0 00:09:51:1 8 Yes, he sure did. Right from the platform with Congresswoman, Marjorie Taylor Greene last night.

Mike Lindell 00:09:51:2 3 00:10:10:2 2

Right, right. And you know what? I you know, the deal is, I said, anybody that watch and I don't know how much he was busy in his bullets, how much she actually was able to watch. But even what he did watch, one of the things he said he was. So he goes, you told me before why you haven't, why you got to lead off with a bang?

Mike Lindell 00:10:10:2 2 00:10:29:2 0

Mike, you can't lead off with, like Alabama house guys said. You know, these blue states lead off with, with an oil rig zone or whatever I go see here. We're not trying to retry Arizona, audit. Whatever we're getting, we're going through each state. And, and they're going to tell their own footprint and you're going to be shocked.

Mike Lindell 00:10:29:2 2 00:10:50:0 5

You're going to be they're going to show you it's in every single state. And every single county. I think it was very much shocked. I talked to him this morning. I was on his show and he said, you're right. You know, I was on a show about two hours sleep and they he said, Mike, he said, just before a show, actually.

Mike Lindell 00:10:50:0 7 00:11:02:0 6

He says, well, he says, I'm a believer. He says, I would have never thought that Utah in my and mind, the Montana's son, the Utah and the Alabama's had so much to say. More that, you.

Lindell interviewer 00:11:02:0 8 00:11:28:0 6

Know, we have him on camera last night from our booth when we were putting shows into the can which the audience folks, if you, you got to see the event. Great. But while we hope you did, if you did, it's a frank speech.com. But let me tell you something. The Moment of Truth Summit is not really over because we put so many shows into the can that we will be releasing over the next coming days.

Lindell interviewer 00:11:28:0 6 00:11:56:1 2

I mean, pretty quick. We're going to try to push them out as fast as we can here on Brennan House live. I know Pete did some shows, Emerald did some shows, Tamara did some shows. I filmed a ton of interviews as well, getting people's perspective on what was unfolding. One of them was Steve Bannon, and he said yesterday in this recording that we'll be bringing out that what was covered during the seven hours of the state of the States address, seven hours, starting with Alabama all the way to Wyoming, he said, was earth shattering.

Lindell interviewer 00:11:56:1 6 00:12:04:1 8

He said, absolutely stunning. An earth shattering, shatter shattering. What came out in those seven hours. So we actually have him on video saying it.

Mike 00:12:04:2 00:12:09:1 Right on, right on. And we're going to, How long's the other
Lindell 0 6 segment with this?

Lindell
interview 00:12:09:1 00:12:12:0
er 8 2 39 minutes, 39 minutes.

39 minutes. Okay, everybody. So get everybody, you know, to get on and watch this here in the next seven minutes to get on because it's going to shock you. It's going to it's going to give you hope and it's going to give you, but it's going to be shocking to hear about the guy that came clean.

Mike 00:12:12:0 00:12:28:2
Lindell 4 2

And, and, that was set up the first algorithm of these machines to steal razors. And, so we're going to be showing that I want everybody I have a few minutes here. I promise you that. All the things you could do and, one of the, the biggest thing right now, we're going to have a whole footprint together.

Mike 00:12:29:0 00:12:48:1
Lindell 3 5

But if you go to Frank's speech and, I don't know if we can pull it up, but it's on. It's the, it's, you go to, Brad, are you able to pull it up?

Mike 00:12:48:1 00:12:59:1
Lindell 5 1

Yeah, yeah, I will certainly work that. Logan, you got my computer. You're able to see it when I pull it up here.

Lindell
interview 00:12:59:1 00:13:04:0
er 3 8

You know, I want everybody to know about these, houseboat records. Because we need them both for the sheriffs, and we need them for the preliminary injunction. Ran, and I got breaking news.

Mike 00:13:04:0 00:13:16:2
Lindell 9 2

Yes, yes.

Lindell
interview 00:13:16:2 00:13:17:1
er 2 8

Breaking news. Everybody, this just in. Are you ready? This is why. This is why we're speaking here.

Mike 00:13:17:2 00:13:24:2
Lindell 2 3

Yes.

Lindell
interview 00:13:24:2 00:13:25:2
er 3 0

The preliminary injunction in Alabama. Everybody. The judge just said he's going to look at it. Wow. The preliminary injunction. Here's another state that you guys out there gets your preliminary junctions. Get yourself a lawyer. Get someone to pay for that

Mike 00:13:25:2 00:13:52:0
Lindell 2 3

lawyer. We got the template. The judges are looking at stuff. Everybody. The judges are going to help get our country back.

Lindell interview er 00:13:52:0 5 00:13:59:1 8 It's excellent. So again, Mike, you said these judges could save the country. This judge could have said no, I'm not going to look at it. But he's saying, yes, I will look at it.

Mike Lindell 00:13:59:2 0 00:14:19:1 2 He's saying, look, he's going to look at. And you guys, are you ready for this August 30th? Very fast. Whoa, whoa. Oh, everybody. Yeah I'm just looking at the details here. August 30th. You realize we just turned in Alabama. We turned it in a week ago. Brandon.

Lindell interview er 00:14:19:1 4 00:14:27:1 4 Yeah. We yeah, absolutely. You did. We were talking about it, when we got to the, venue there, I think on Thursday night.

Mike Lindell 00:14:27:1 6 00:14:32:2 0 God should not wait. Everybody. This judge did not wait.

Lindell interview er 00:14:32:2 2 00:14:33:0 7 That is.

Mike Lindell 00:14:33:0 7 00:14:58:1 5 Excellent news. That's great news, everybody. Just great news. So but let's, let's see 39 minutes here. So in seven minutes, everybody, I want to tell everybody, everyone else how they could help out. You need to go to the Lindale Legal Offense Fund. All those people there, all the stuff that anyone that needs help or.

Mike Lindell 00:14:58:1 7 00:15:20:1 3 So we're putting these funds to help, help, help the states, help the sheriffs, help the, the lawsuits help anything that's going to get rid of these machines. If you spend money, if you're out there and you spend money on campaigns, that's where you should be. Spend it to get rid of the machines. Yeah. Otherwise they're selecting him for you.

Mike Lindell 00:15:20:1 3 00:15:45:0 7 Okay. So it's Lindale legal offense fund, everybody. Then the legal defense fund. And, and also Browning, the, I want to tell everybody thanks for the weekend. We didn't get much advertising in, but tonight is called l 77. We've got the, you can use it gold for the new coffee. Everybody love the coffee.

Mike Lindell 00:15:45:0 7 00:16:07:1 9 We had coffee at the summit. The my coffee. It was, maybe that's why, Jim, the guy running it, his organization that ran that set everything up. They were amazing. Absolutely amazing. He's been doing it 30 years. He said he never seen 12 to 1400 people

at a time. Always and always sitting in their chairs watching for 12 hours straight.

Mike 00:16:07:1 00:16:09:0
 Lindell 9 3 Everybody both days?

Lindell
 interview 00:16:09:0 00:16:09:2
 er 3 1 Yep.

Mike 00:16:09:2 00:16:16:0
 Lindell 3 4 And, you know, well and that's, you know, the they didn't have to go far for food. We went we have the best food there. It was awesome.

Lindell
 interview 00:16:16:0 00:16:35:1
 er 9 0 Let me just say, Mike is one of the most generous people you'd ever meet. He not only covered the hotel of so many key people to be there, to make it easy on him in this day and age with gas prices and food prices. But then Mike fed everybody. Everybody was fed by Mike Lindell. He had catered in amazing food.

Lindell
 interview 00:16:35:1 00:16:41:0
 er 0 9 I'm talking breakfast, lunch, dinner, desserts, everything.

Mike 00:16:41:1 00:16:56:1
 Lindell 1 4 And we never had a in between. It wasn't like you had this to eat between this. And then it was a nonstop buffet. Yep. Food. I want people to keep watching because it was so important. Back to the calls of action, everybody. Are you ready? Brand new shirts.

Lindell
 interview 00:16:56:1 00:16:59:1
 er 6 4 That. Yes. Calls to action at Frank's beach.com.

Mike 00:16:59:1 00:17:26:1
 Lindell 6 3 For instance, your French beach.com. Let's go to the third screen right there. It says save your County. Click on that branding. Save your county. Okay. Oh, I'm not seeing it here. I can't, I can't. There it is. Okay. There it is. You see that, jab for Dolly to make s? Cows sport records like the old books for dummies.

Mike 00:17:26:1 00:17:34:0
 Lindell 3 9 Yep. I didn't know anything about it. He goes, you know, I got a book I wrote, and, if you're going to hire, what does it say?

Lindell
 interview 00:17:34:0 00:17:36:1
 er 9 6 Download the e-book right there. There it is.

			Okay. Yep. There you go. It's gives you think. But you guys, you really need to get these cows voter records in cows vote record.
Mike Lindell	00:17:36:18	00:17:55:10	It's not voter cast vote records. And it's awesome. It's awesome. It's awesome. So anyway, that's,
Lindell interview	00:17:55:12	00:18:09:13	And that's the square, folks, right there. Right below the second player is the square he's talking about right there. But somebody is there. Somebody is already asking in the feedback, where do I where do I send my cast vote record? And Mike, that's it. Raccoon. What?
Mike Lindell	00:18:09:15	00:18:35:22	A raccoon. It's on there. It's on that website. Raccoon outreach speech.com. Okay, according to Acuna. Frank Street com. So now, everybody I want you all we're going to go in a few minutes to this this epic show from this show. By the way, if everybody did, you see it said inside the machine was another thing. Everybody remember we have inside there should be news all over everywhere.
Mike Lindell	00:18:36:04	00:18:56:13	We are now have camera angles. Everybody, let me show you this granite. Remember, if you're if you're rob a bank and here's three different camera angles. We just showed you one. If you get the cows records it shows that the machines have stalled. It shows that there's an algorithm you want. You've seen it 100%. It's a machine where it says inside the machines.
Mike Lindell	00:18:56:13	00:19:29:03	If you click on that, we got to do a whole show on that. I'll do it tomorrow night. Click on that. Inside the machines, everybody is the, right there is show us everything. You can download the image. The whole image. That's the start. And for that, the, this is the maze. So on the Dominion image before they deleted the election and, afterwards, our app saw you get you get votes and we have remember, we have access to four other machine images, two of them different brands.
Mike Lindell	00:19:29:03	00:19:56:14	Yes. Or Nelson, another one. So in any other thing brand, it should be. All right. This proves, proved algorithms in the machines. Then we also have, what I would told the, which we're going to show in the next hour, the 37 or 32TB. So you have the you have what I've had since last year from Dennis Montgomery, the 32TB, showing all the all 50 states here you have inside the machines brand.
Mike Lindell	00:19:56:16	00:20:07:05	Now, you have another angle getting those Casper vote records, the cast vote records. So, Brandon, how much would take the people to not say that there's no evidence?

Lindell interview er	00:20:07:0 6	00:20:11:0 6	I know it's all over Frank speech right now, isn't it? Everywhere. It's everywhere. Three different camera angles, everybody. And, But I want to thank everybody for your support. I will, see you next hour. I'll see if I can come in. Brandon. You know, you guys should tell the story. You and Mary Fanning and how you got to that epic day on January 9th, and then, give me a call.
Mike Lindell	00:20:11:0 8	00:20:30:1 4	
Lindell interview er	00:20:30:1 9	00:20:33:1 2	We'll do that. Battle started exactly 7:00. Yep. All right. Sounds good. Well, you got 39 minutes. Everybody tune in and watch this. This. It's going to shock you. It's going to. It's awesome. Hope and shock at the same time.
Mike Lindell	00:20:33:1 4	00:20:42:0 7	
Lindell interview er	00:20:42:0 9	00:20:53:0 4	Here is Michael Liddell's interview with Clint Curtis the whistleblower last night dropping this huge historic story at the moment of Truth Summit. Here's how it went down.
court staff	00:20:53:0 6	00:20:56:1 0	Mr. Curtis, would you please state your full name for the record?
Clinton Curtis.	00:20:56:1 2	00:20:58:1 5	Name is Clinton Eugene Curtis. And where do you reside? Tallahassee, Florida. And what is your profession? I'm a computer programmer. Would you please speak into the microphone so the audience can hear your testimony?
court staff	00:20:58:1 7	00:21:07:1 2	
Clint Curtis	00:21:07:1 6	00:21:10:1 0	I'm a computer programmer, Mr. Curtis.
court staff	00:21:10:1 0	00:21:16:1 5	Are there programs that can be used to secretly fix elections? Yes. How do you know that to be the case?
Clint Curtis	00:21:16:1 7	00:21:27:2 3	Because in October of 2000, I wrote a prototype for president, Congressman Tom Feeney at the company I worked for, no veto of Florida, that did just that.
court staff	00:21:28:0 1	00:21:30:2 1	And when you say to did just that, it would rig an election.

Clint Curtis	00:21:31:0 1	00:21:37:1 5	It would flip the vote 5149 if ever you wanted to go to and whichever you wanted to win.
court staff	00:21:37:1 7	00:21:45:1 2	And would that program that you designed for something that elections officials that might be on county Board of elections could detect.
Clint Curtis	00:21:45:1 4	00:21:48:1 3	They never see it?
court staff	00:21:48:1 5	00:21:53:0 3	Mr.. Would you answer that question once again?
Clint Curtis	00:21:53:0 5	00:21:55:2 3	They would never see it.
Mike Lindell	00:21:56:0 0	00:22:22:0 2	Okay. I'm going to I'm going to show you now, that was back. This guy wrote the first algorithm in history for the machine to flip votes, 5149 okay. And he admitted it. And Clint Curtis is here right now. Come on. All Clint.
Mike Lindell	00:22:22:0 4	00:22:46:1 8	I don't sir. No I'm going to I'm going to give you a background about Clint. I heard about him two weeks ago. Everybody two weeks ago. And I'm going what? I said it's this guy made the first algorithm and he's a Democrat, and he. And he voted Biden. And I'm hearing about this, and I go, and I couldn't believe it.
Mike Lindell	00:22:46:1 8	00:23:08:0 8	And I said, and he wants to tell the world about, about what happened or what. It's how it all started and where he wants to go now. And I get on the phone and I call, I called Clint, I'm going, okay, I'm John Kerry. This is this is a God thing of all time. So a little mix up.
Mike Lindell	00:23:08:1 4	00:23:29:0 3	I was meeting him in New York, and I and I went to Florida by accident. It was quite a mix up. Okay. And he's calling me on the phone and I'm going, where are you? And he goes, I'm inside the airport at the museum. So I'm in the airport in Sarasota, Florida, going, where's your where's your museum?
Mike Lindell	00:23:29:0 3	00:23:49:0 9	And they're going, Mike, we don't have a museum. I go, I go, Clint, they can't find the museum. This guy doesn't know the next guy. Hey, Mike. Hey, Mike. I said, where's the museum? No, we don't have a museum. And I find out I'm. He's in New York. So then I fly up there and then thing that it was like planes, trains and automobiles, right?

Mike Lindell	00:23:49:0 9	00:24:11:1 0	So I thought, this guy is going to think I'm, oh, nuts or something. And I couldn't believe what I was hearing. So we sit down finally, it's going to be a baby an hour meeting and I start telling him more. I'm sorry about me. And I said, and he goes, he hands me this. I tell him something for about an hour or an hour, probably.
Mike Lindell	00:24:11:1 0	00:24:31:0 2	Right. And Clint hands me a piece of paper and on it is bullet points on there a strategy of how we can unite Democrats and Republicans to unite, to get rid of the machines.
Mike Lindell	00:24:31:0 4	00:24:51:0 1	And I said and I said, I said and he goes, here's what we need to do is we need to do. And I go, I said, no, we've done that. We're ready. I said, you got to come to this event. We have to do it now. We get one shot at this and he's and he's sitting there going, well, I got an idea.
Mike Lindell	00:24:51:0 1	00:25:07:0 8	I'll go over here. I have my Democrat friends and, and, and, he, he's name it. I'm. And you all know the names. You'll chain a second he goes, he goes, I can convince them. You go over here and you talk to, you know, people over here, and I go, no, we need to bring it to the people.
Mike Lindell	00:25:07:0 8	00:25:16:0 8	And we get one shot at this. Okay? So Clint, first of all, could you tell him, did I say anything? Right?
Clint Curtis	00:25:16:1 0	00:25:24:1 6	You did it. It's Syracuse, New York. Okay. If not for us.
Mike Lindell	00:25:24:1 8	00:25:40:1 3	Okay, my pilot signal, I go, we're going to Syracuse, Florida. They go, you mean Sarasota? I go, yeah, yeah, yeah, yeah, they both start with it. Else, I think I think a machine switch the letters on me and my phone.
Mike Lindell	00:25:40:1 5	00:25:43:1 8	Jim Cook, did you do that? Jim?
Mike Lindell	00:25:45:1 7	00:26:07:0 1	Tim's gone. Fox. I'm. He's not talking right now. He's trying to listen up. Okay. Can you give us. You know, you wrote the first. Give us the background story you started tell me. And my mouth was dropping. Back in the years when the person asked you to write this. The first algorithm in a machine, in a computer.
Mike Lindell	00:26:07:0 1	00:26:07:1 8	Go ahead.
Clint Curtis	00:26:07:2 0	00:26:32:1 9	Well, back in 2000, I worked for a company in Orlando, Florida, and, I was a programmer. I'm a lawyer now, but I was a

programmer then. You can't be a programmer after you become a whistleblower. It doesn't work out anyway. So, I'm a lawyer now, and so the person who came in and requested a basically a touch screen machine, one don't think I have a touchscreen machine, but that it could be manipulated.

I figured it's like a penetration thing. I can write or I can show them what to do, and then I can tell them how to make sure it doesn't happen. So I wrote it. I handed it to them. It's really simple. In fact, let me put on the screen for if you want to see it, because I kept it there.

Clint
Curtis 00:26:32:2 1 00:26:48:2 1

We up the up. Okay. We're not on the screen.

Clint
Curtis 00:26:48:2 3 00:26:55:2 1

Oh there.

Mike
Lindell 00:26:55:2 2 00:26:56:0 4

We are.

Clint
Curtis 00:26:56:0 4 00:26:56:2 2

We're on the screen. Did everyone hear that? Okay, sure. Start over with when they can't. Somebody came to you.

Mike
Lindell 00:26:57:0 2 00:27:03:0 3

Right. Okay. Fellow who? He was the speaker of the Florida House. He was also the head lobbyist of the company. I work for now. In most places, that might be considered a, conflict of interest, but I was in Florida.

Clint
Curtis 00:27:03:0 5 00:27:17:0 1

That was this guy. This guy was this guy was Tom Feeney. Tom Feeney. Okay, who is Tom Feeney?

Mike
Lindell 00:27:17:0 3 00:27:22:0 9

He was speaker of for a House. And he was a running mate of Jeb Bush.

Clint
Curtis 00:27:22:1 0 00:27:25:1 9

What was he, a Republican?

Mike
Lindell 00:27:25:2 1 00:27:27:0 3

He was a Republican.

Clint
Curtis 00:27:27:0 5 00:27:28:0 2

Was a Republican. Okay.

Mike
Lindell 00:27:28:0 3 00:27:29:0 9

At the time I was a Republican. So I figured he's a good guy. Right.

Clint
Curtis 00:27:29:0 9 00:27:33:0 1

Mike Lindell	00:27:33:0 6	00:27:34:1 4	And what are you know.
Clint Curtis	00:27:34:1 6	00:27:36:0 7	I am now a Democrat. I've been Democrat for.
Mike Lindell	00:27:36:0 7	00:27:37:2 1	And you voted for Biden, right?
Clint Curtis	00:27:37:2 1	00:27:43:0 0	I voted for Biden. I even like Biden when I was a Republican. So I'm like a Biden Democrat.
Mike Lindell	00:27:43:0 1	00:27:51:2 0	98. You all know this. Okay. And so this Republican came to him, says Tom Feeney. And I'll go ahead and tell him what he what did he ask you to do?
Clint Curtis	00:27:51:2 0	00:28:10:0 4	Essentially, he wanted this program where the vote could be manipulated. My assumption was it's to keep it from happening. You know, evil Democrats might be out there writing it right now. So we're going to show how it works and how to fix it. And so essentially this is what I wrote, does the same thing. I mean, I couldn't take it out of the company, but I rewrote it because it's so simple.
Clint Curtis	00:28:10:0 6	00:28:36:2 3	Anyway, as you can see, you have a Democrat, a Republican and a Green Party. Okay. So if you look at the here, the mike there, if you look at the box in the bottom, you would not see that on your machine. Obviously when you're voting. But it's a little better if you can actually see what's going on. So in this basically if you do what it's supposed to do and you vote for the Democrat, Democrat goes up by one, you vote for the Republican.
Clint Curtis	00:28:37:0 1	00:28:45:1 3	Republican goes up by one vote for the green. So you can add to that 15 vote total and it goes up by one. Okay.
Mike Lindell	00:28:45:1 3	00:28:51:2 3	You guys report that when you said do it, you're supposed to vote for the Democrat. Did you see that for John?
Clint Curtis	00:28:52:0 1	00:29:12:0 1	So there you go. But let's say that some time during the election, you are now going to go in and fix this vote. If you can see the Republicans at 1242 and the Democrat is at 866, right. But I want the Democrat to win. So all I have to do is just tell him, wave a magic wand and there it goes.

Clint Curtis	00:29:12:0 3	00:29:41:0 1	And on the totals, it's fixed on the logs, it's fixed. Everything is fixed because a lot of people talk about the logs being wrong. That is lazy programing logs don't write themselves, programmers write logs. Okay, so everything on that computer I own, I can change the screen, I can change the totals, I can change the logs, I can do everything.
Clint Curtis	00:29:41:0 3	00:29:47:1 9	Okay? I can even make this program eat another program so you can't find the switch.
Mike Lindell	00:29:47:2 1	00:29:53:0 5	So would it be a program that you designed that some that election officials could detect?
Clint Curtis	00:29:53:0 7	00:29:56:1 3	They have no chance because they don't see that box either.
Mike Lindell	00:29:56:1 3	00:30:02:0 1	And this program, the first algorithm you made was what, 5149.
Clint Curtis	00:30:02:0 3	00:30:15:1 2	5149 exactly. So everything switches 5149. The reason for that is because it's far enough along that you don't launch an automatic recall. So it was a good guess.
Mike Lindell	00:30:15:1 2	00:30:25:1 0	Here that so is developed. So it when launch an automatic recall right. So back then this was simple. Now these were simple algorithm but very simple algorithm.
Clint Curtis	00:30:25:1 0	00:30:38:0 4	Very simple. Let me show you the code. Code is very simple. It's 24 lines. Code long. So the whole program is probably 200 lines. But open up guy. There you go.
Mike Lindell	00:30:38:0 6	00:30:40:0 2	So this is the actual code you wrote.
Clint Curtis	00:30:40:0 4	00:30:41:2 3	Yes. This is actually it.
Mike Lindell	00:30:42:0 1	00:30:42:1 6	What year was.
Clint Curtis	00:30:42:1 6	00:30:44:0 7	This? This was 2000.
Mike Lindell	00:30:44:1 0	00:30:45:0 9	2000

Clint Curtis	00:30:45:0 9	00:30:47:0 8	Everybody write.
Mike Lindell	00:30:47:1 0	00:30:49:0 9	2000. Keep that in your head.
Clint Curtis	00:30:49:1 4	00:31:12:1 3	And the problem when you start off with a weapon, you don't get to keep that weapon. Suddenly the other side has it. Somebody else finds out to hack it. Because this if you use machines, they are so hackable. It's almost the last guy in wins. So if I'm hacking to make Fred win and the guy behind me, he's hacking makes Sally win, and he comes in after me, I lose, he wins.
Clint Curtis	00:31:12:1 5	00:31:14:1 6	It's just the way it works, because the code is kind.
Mike Lindell	00:31:14:1 6	00:31:17:0 0	Of like the last guy in a silent auction.
Clint Curtis	00:31:17:0 3	00:31:17:1 2	Right?
Mike Lindell	00:31:17:1 3	00:31:19:0 7	The last bid.
Clint Curtis	00:31:19:0 9	00:31:37:2 1	So other than the fact that it's a bad idea to cheat democracy, it's also not really secure either. So you can decide that you don't like somebody. He's gone. Okay. Where's that? Here. There you go. This is the code. If the Republican you take the sum, you get 51%. Then you do the math to cut it back and you do it right.
Clint Curtis	00:31:37:2 1	00:31:55:1 8	So my math always adds up. Do you have a lot of these were the math doesn't add up. I'm better than that okay. My math always adds up. My logs always are right okay. Because I took the time to do it and it's a prototype. So you're not even going to roll this out. This is something someone else is going to pick up and put on a machine.
Clint Curtis	00:31:56:0 0	00:32:10:2 2	So it doesn't go directly on the machine as it is. But the key is and when I did this, of course, I gave them how you would make sure that you don't use this stuff and how it could influence the election, because that's what I thought the purpose was. So I gave him a list of what you need to do.
Clint Curtis	00:32:10:2 2	00:32:18:0 3	And it's real simple. It's the same thing we need to do day. First of all, don't use the machine, right. It's a good start, right?

Mike Lindell	00:32:18:0 5	00:32:30:0 0	I want to go. I want to go back a little bit. So when you when you gave this to this, Tom Feeney. And then when did you realize they were using it in elections?
Clint Curtis	00:32:30:0 2	00:32:45:1 7	Well, when I gave it to the owner of the company, Feeney wasn't there at the time. When I gave it to the company, I said, here you go. And here's the list of what you have to do to make sure you don't get taken advantage of by machines and or companies. This isn't really for stopping for, this is for flipping phones.
Mike Lindell	00:32:45:1 8	00:32:46:0 8	They used it.
Clint Curtis	00:32:46:0 8	00:32:48:0 0	For the South Florida. Right.
Mike Lindell	00:32:48:0 0	00:32:53:1 9	You thought it might be shown how somebody could do it to stop it, right? And then all of a sudden, you realized they were using it.
Clint Curtis	00:32:53:2 1	00:33:13:0 4	Yeah, but I didn't think they'd be able to use it, because who's going to be stupid enough to use a machine where you don't see the source code? And it's going to tell you who won, Really? That's a stupid. Nobody's going to do that. Right? So, you know, I ignored it Lego way. It wasn't all that involved in politics.
Clint Curtis	00:33:13:0 4	00:33:29:1 0	I was a Republican from Illinois, so which is markedly different than a Republican from Florida. Guys, it just is. Anyway, so, didn't ignore it. But then in 2004, the election went haywire and everything was 51, 49, 51, 40.
Mike Lindell	00:33:29:1 1	00:33:31:0 3	But election was this.
Clint Curtis	00:33:31:0 5	00:33:32:0 2	This is Bush.
Mike Lindell	00:33:32:0 4	00:33:35:0 9	This was Bush. Exactly 5149.
Clint Curtis	00:33:35:1 0	00:33:51:2 0	Exactly 5149. They had all this polling. They were doing this go. Well, look, Kerry won the women vote and Kerry won the men's vote, and Bush won the total. Well, what sex is that? You know what? Put him over the top?

Mike Lindell	00:33:51:2 2	00:33:54:2 0	Was that a deviation? Right.
Clint Curtis	00:33:54:2 2	00:33:55:1 7	And there's a lot of that.
Mike Lindell	00:33:55:1 7	00:33:58:1 0	But then then it dawned on you they were using what.
Clint Curtis	00:33:58:1 2	00:33:58:2 2	They were using.
Mike Lindell	00:33:58:2 2	00:33:59:1 8	So developed.
Clint Curtis	00:33:59:2 1	00:34:20:1 1	So I notified everybody and told what's going on and figured they would be able to grab onto this. And everybody, Democrats and Republicans alike, would rally around it and throw these machines in the ocean. Right. It's been 20 years, guys, and they've done nothing. Okay. You know, you can see for some of the clips, these are some of the people that I talked to about it.
Clint Curtis	00:34:20:1 1	00:34:39:2 3	I talked to Hillary Clinton, I talked to Barack Obama when he was just coming in as a senator. You know, he showed me around his office because, you know, he was really excited, even though when you first came as a senator, it's in the basement. It smells funny. But he was real happy with it. So, you know, he shows around the office, but, you know, we talk to him about all this stuff, and they were on board.
Clint Curtis	00:34:40:0 4	00:34:42:2 1	But the Republicans were not moving at the time.
Mike Lindell	00:34:42:2 3	00:34:46:0 3	So there were Democrats wanting to remove them. And the Republicans were not.
Clint Curtis	00:34:46:0 6	00:34:54:2 0	The Republicans hadn't been built yet. Right up until you get bit by it, it's okay. You know, you can ignore it because it doesn't affect you.
Mike Lindell	00:34:54:2 0	00:35:00:1 7	Right? But I want to I want to back up to the to the 2000. First of all, have you ever taken a lie detector test?
Clint Curtis	00:35:00:1 8	00:35:02:0 5	I did, of course.

Mike Lindell	00:35:02:0 7	00:35:04:0 7	But yours is that right? After.
Clint Curtis	00:35:04:1 1	00:35:06:0 0	Well, when you win 1000 and.
Mike Lindell	00:35:06:0 2	00:35:13:0 7	One, what year did you become a whistleblower? Did you go out there? When was that that hearing when you said, hey, we can't. I was the first.
Clint Curtis	00:35:13:0 9	00:35:18:2 3	2004, I think I did the testimony, and in 2005, I actually took the test.
Mike Lindell	00:35:19:0 1	00:35:36:0 1	Okay. Is that have any I don't know if I'm getting ahead here. I just want to make sure we cover this, you guys, because it's so important when we're there. Any other countries that you started to see using your source code?
Clint Curtis	00:35:36:0 3	00:35:58:0 4	Yeah. So they started coming to me. I've done documentaries, probably 30 documentaries around the country. We did Italy. They got rid of machines, we did Germany, they got rid of machines. In 2018, Netherlands called because they had the Russians poking in on their machines, and they were scared that something was going to happen. And they called me up and said, what can we do to protect our machines?
Clint Curtis	00:35:58:0 4	00:36:00:1 5	And I said, you can throw them in the ocean.
Mike Lindell	00:36:00:1 7	00:36:07:1 0	And but ho! I say, melt them down and recycle and use them for prison bars.
Clint Curtis	00:36:07:1 2	00:36:11:1 3	Oh, well. Oh, but he's much more recycling than I thought.
Mike Lindell	00:36:11:1 3	00:36:14:0 8	I want to tell you this. So that was in 2018.
Clint Curtis	00:36:14:0 8	00:36:15:0 4	2018
Mike Lindell	00:36:15:0 4	00:36:27:1 2	So they came to him knowing he wrote the first algorithm. And so what do we do? What can we do to stop this. And he says, you can't throw them away. You have to do what paper and hand counted.

Clint Curtis	00:36:27:1 4	00:36:31:0 7	There's nothing you can do to stop it. If the pants stop there, you never.
			Okay, now I want you all to hear this. Very important. So the Netherlands came to. And you said you can't use them. It's.
Mike Lindell	00:36:31:1 3	00:36:44:0 4	There's no way to scare them. So what did they do and how long did it take?
			It was it was six months before their election. So obviously they're stuck with them right. How can you switch on six months?
Clint Curtis	00:36:44:0 4	00:36:57:0 6	But if you're in the Netherlands, apparently you can, because they did. They stopped using.
Mike Lindell	00:36:57:0 7	00:36:59:1 2	They went completely the paper.
Clint Curtis	00:36:59:1 4	00:37:00:1 5	Full hand hand-count.
Mike Lindell	00:37:00:2 0	00:37:02:0 3	Six months.
Clint Curtis	00:37:02:0 5	00:37:03:1 0	Counter the whole thing by.
Mike Lindell	00:37:03:1 2	00:37:09:0 9	Why? Because they had to where they were going to lose their country forever, right?
Clint Curtis	00:37:09:1 1	00:37:11:1 3	Yeah. So they had to get rid of them and they did, you know.
			So they came to the guy. And you know, what? Can you imagine back in the early 2000s, you got a guy that admitted he'd. Right. No. You're going okay if we got in here. And you know what? I'm going to tell you this. The new codes wrote out said I'm probably wasn't supposed to. I don't care. There were guys that there were three different times where I had guys from three different countries that were involved there were coming over here to sit here on this stage and tell you all they wrote this code they can't
Mike Lindell	00:37:11:1 6	00:37:49:1 4	make for reasons like, you know, there's still stuff going on out there with the investigation.
			It doesn't matter on who did these guys were used for. They were the code writers, and there was a tool. If an evil tool used in these computers, but it would have made it real. But instead we found the guy that wrote the original code. You can't make this up and praise the Lord. He's a Democrat and Biden, so the rotten
Mike Lindell	00:37:49:1 6	00:38:16:1 3	

crooked media can say Mike brought in another Trump supporter.

Clint Curtis 00:38:17:0 9 00:38:27:1 9 Not only about Biden supporter. I actually was the Democratic candidate for, US Congress down there last year. Right? Wow. So and I am a Democrat.

Mike Lindell 00:38:27:2 1 00:38:28:0 3 There's a.

Clint Curtis 00:38:28:0 3 00:38:36:1 6 Democrat. I also would like to see elections that are actually real. Would that be nice when I see something?

Mike Lindell 00:38:36:1 8 00:38:55:1 4 Yeah. And I want to I want to tell you and I want to tell you when I and I had two champions. Clint, I said when he told me his plan to. We have to get rid of these. We have to. And he tells me who it was and where it started. I said, I'm going, okay. I said, this isn't, but I've been telling it.

Mike Lindell 00:38:55:1 4 00:39:10:0 6 And I told him I had to convince him and say, this isn't a Trump rally you're coming to. Do you see a hand out there? So these are people that know if we don't have if we have machines, we lose our country. We lose our country, right?

Clint Curtis 00:39:10:0 8 00:39:32:1 9 Actually, I don't mind if I see a hand out there. I think everybody should have the right to support whoever they want to support, right? Right. And then they vote and then it washes out. But more importantly, in a democracy, we have to believe in it. How many people in this room believe that the last election was fair?

Clint Curtis 00:39:32:2 1 00:39:55:0 3 Nobody, even if it was, that's a terrible thing. And I can tell you last time when Trump won as a Democrat, 80% of the people I talked to did not think he won fairly, so he was not there. President like Biden is not yours. I always play a game to show people how it works. Let's play real quick.

Clint Curtis 00:39:55:0 3 00:40:00:0 7 Okay? So I'm thinking number two, one and two, but I'm thinking number two, 1 or 2 ticket.

Mike Lindell 00:40:00:0 9 00:40:00:2 3 Wonder what?

Clint Curtis 00:40:01:0 1 00:40:02:0 6 Between 1 and 2.

Mike Lindell	00:40:02:0 8	00:40:09:0 8	Oh, this game they play on that one in that movie. Las Vegas vacation. I got this game I love it.
Clint Curtis	00:40:09:1 0	00:40:13:0 2	Two wrong. And that's how the elections work with the data, right?
Mike Lindell	00:40:13:0 2	00:40:13:1 9	Yeah. Let me try.
Clint Curtis	00:40:13:1 9	00:40:15:2 2	Again. Okay. We're going to do it again. This time it's.
Mike Lindell	00:40:15:2 2	00:40:18:2 2	Like Chevy Chase at of time. I can do it one through ten.
Clint Curtis	00:40:19:0 0	00:40:23:1 5	Just don't write it down like we do that a write down. Okay. 1 or 2.
Mike Lindell	00:40:23:1 7	00:40:24:0 8	One.
Clint Curtis	00:40:24:1 0	00:40:35:2 2	Okay, I'll say wrong. But even if it's right, even if it does say two, one here, he won't believe it because I won't show him the paper. Right.
Mike Lindell	00:40:36:0 0	00:40:37:1 2	You understand that?
Clint Curtis	00:40:37:1 4	00:40:51:1 7	You get that if you can't count it and you can't see it in a 5050 country, you're not going to believe it. If they keep hiding the ball and that's what they do, right? Anyone who's trying to get records know that, right?
Mike Lindell	00:40:51:1 7	00:41:09:2 3	I'm going to go back a little bit when I said the thing about the rally, because I wanted him to know at 100% believe, because he hadn't seen what I've been doing for a year and a half. I had to backtrack and I had to tell him about Jimmy Kimmel. When Jimmy said, Mike, would you do this if he if your friend what if it was flipped?
Mike Lindell	00:41:09:2 3	00:41:35:1 1	Would you do it if your friend Donald Trump had won, if they picked him? And I said, absolutely. And I told you that story, I said, and they went back Washington Post and political came to Minnesota, and they question they were there two days trying to find one person would say, oh yeah, he won. He would have

never, ever talked about the machines, but he couldn't find one because I had already been through that once in Minnesota.

Mike Lindell	00:41:35:1 1	00:41:55:0 9	And another thing where I fought City Hall on morals, what was right. I lost everything I had. But five years later it all came true. Everything I fought for came true. I saved a whole industry in Minnesota. They called me up. The restaurant industry and a bar, and she called me up and said five of them and said, Mike, I want to thank you for what you did.
--------------	-----------------	-----------------	--

Mike Lindell	00:41:55:0 9	00:42:05:2 3	I know you lost everything, but you saved us. And I said I wouldn't change a thing knowing that I lost everything back then because it was the right thing to do and it saved them.
--------------	-----------------	-----------------	---

Mike Lindell	00:42:07:0 3	00:42:23:1 8	So that's why they couldn't say anything. And, and that's and that's where I wanted to really convince Clint that we are on the same course that he is, that we all are. And now, you see, by watching this, that that's what it is.
--------------	-----------------	-----------------	--

Clint Curtis	00:42:23:1 9	00:42:27:1 3	Do. I'm quite impressed by the way.
--------------	-----------------	-----------------	-------------------------------------

Mike Lindell	00:42:27:1 5	00:42:27:2 1	Because.
--------------	-----------------	-----------------	----------

Clint Curtis	00:42:27:2 1	00:42:38:1 6	Just because you think all Democrats are crazy communists, liberals. I thought you were all wild eyed, you know, people with axes and those funny horn things on.
--------------	-----------------	-----------------	---

Mike Lindell	00:42:38:1 8	00:42:39:0 7	They are.
--------------	-----------------	-----------------	-----------

Clint Curtis	00:42:39:0 9	00:42:41:1 0	Not really.
--------------	-----------------	-----------------	-------------

Mike Lindell	00:42:41:1 2	00:42:58:2 3	I've, I've, you know, I've, I've spoke of the Uni party. See, I go a little bit deeper. I think there's a lot more corruption in that maybe. And Clint thinks of the, of the they in both parties I, I had to tell Clint I said I said and you seen you're going to see a tape here on the next.
--------------	-----------------	-----------------	--

Mike Lindell	00:42:58:2 3	00:43:20:1 6	And when we're done and you'll see I told him the story. I said, when, CNN attacked me four days before the cyber symposium and they got on this on this Democrat thing, and I said, you and I went off on the interview and I said, I said, you're wrong. I said, I have never sat and badmouthed, the Biden or the or the Democrats.
--------------	-----------------	-----------------	--

Mike Lindell	00:43:20:1 6	00:43:41:0 2	I said, as a matter of fact, I bad mouth was the Republicans that were popping up like pocket gophers. You know, I mean, I mean, you all heard me. I think you all know how to say Raffensperger now, right? I mean, the Triple Crown of crime. But this is this is I, I've never said that. I always have told you all.
Mike Lindell	00:43:41:0 8	00:44:00:0 5	I've never changed from the day that I knew that what this was, that it was machines. And I have never changed on that. I said, I don't care if you're a Democrat or Republican, I, I prayed, we pray for those kids this morning, that reporter, wherever he is in here, that they would realize that our country is at stake here.
Mike Lindell	00:44:00:0 7	00:44:20:0 0	You know, the thing they couldn't get me, they couldn't always get me on because I've been to all walks of life. I never voted, I never I told you that I never voted. I didn't think politics meant a thing. One of the things that 2020 election has done not only and woken us to get rid of the machines, but realize how important politicians are.
Mike Lindell	00:44:20:0 0	00:44:34:0 8	The decisions that are made can affect everything we do, so they better be voted like by the people, and every vote count for that one person.
Clint Curtis	00:44:34:1 0	00:44:43:1 1	Because right or left it will work itself out eventually. Okay, it goes left, it goes right, it all comes back in the center or somewhere. So now I don't get too excited.
Mike Lindell	00:44:43:1 2	00:45:10:0 5	Yeah. When you what's been your frustration knowing that you started the code and that you all of a sudden you go, they're using it for to destroy countries and including our own. And you're frustrated because you're the other party you wanted isn't even with it. So it's used against even yourself, your own party, you know, whatever. But where did you find it?
Mike Lindell	00:45:10:0 7	00:45:21:0 8	It were on the opposite side. So you're back, then you're going. Okay. The none of the Republicans back then was you told me it was like almost all the Democrats said they wanted the machines gone. Right.
Clint Curtis	00:45:21:1 0	00:45:43:1 0	It is. They wanted them gone. I actually worked for the Kamala Harris campaign when she, did a recall out and, when she ran for attorney general. I think it's 2010. So I can talk to these people. If you guys can get the Republicans on board, we can get this done. Oh, well, we're going.

Mike 00:45:43:1 00:46:05:0
 Lindell 2 4

And we're going to have this in the call to action, said one of the biggest thing is we have to know the people have to know in this country after this cyber or this, moment of Truth summit, they're going to try the media. Believe me, the media is going to probably go completely silence. But we have a great call to action.

Mike 00:46:05:0 00:46:24:1
 Lindell 6 7

And once the people know the people, it has to keep coming. We're going to have all these things on frank speech for a reason. So you have a place to send people to go there. And the more people, the more people that have seen this. We probably have a couple, 2 to 4 million that seen this weekend. I don't know the numbers yet, but you know what?

Mike 00:46:24:1 00:46:47:1
 Lindell 7 6

We need 300. We need a billion people to see. Remember I told you all that back in 1973? Elvis Presley did hello from Hawaii. Remember that 1 billion people seen that almost one a little over one, almost one fifth or a little over one fourth the world's population. Watch that, show that in real time. And back then they didn't have communication.

Mike 00:46:47:2 00:47:22:0
 Lindell 1 4

But the word got out because it was so epic. Well, this is going to be up to all of you to get the word out. But we have the tools to do it. All the social media platforms even suck a bucks, Facebook, use it against them, and Twitter, you know, and now we're going to be able to do things like here is you didn't get listened to before, but we can go around now, the two of us and try and you guys get all the people to believe we can go to know the next level and we can call on our politicians, all of them on both sides, and say, hey, we need to

Mike 00:47:22:0 00:47:26:0
 Lindell 4 1

get these machines gone or we lose our country.

Mike 00:47:28:0 00:47:52:2
 Lindell 9 1

And you're going to find out real quick who doesn't want machines gone if it's a whether it's a Republican or a Democrat, you know that where they stand, they're not for the people them. Because if they're not for either party, what are they for then? That you gotta think about that. There you go, China.

Clint 00:47:52:2 00:48:15:1
 Curtis 3 6

And I give you a little hint on how to threaten them. Don't threaten them that you're not going to vote for them, because you can see it's 5050 where that matters or not, right? Threaten to take their money away. Don't send them any money. That's what I told the Democrats to talk to their people. Don't send them money because they can get votes from the machine, but they can't get money and they want your money.

Clint Curtis	00:48:15:1 8	00:48:19:2 1	Okay? I don't care which party it is. They want your money.
			I'm going to now. I'm going to go back. I'm gonna just I gotta whack Smartmatic here a little bit because remember, they do have a few billions of dollars worth of lawsuits against me. Remember that part? I have the record. I'm the highest one in the country. Now, if you come by my company, what they did and remember Smartmatic, their historical day of February 4th of started law fair in the United States and shut Fox down.
Mike Lindell	00:48:19:2 1	00:48:43:1 2	
			And everybody else from talking. They shut down our voice. And now I'm going to ask you this. Did it surprise you to learn that Smartmatic has been working with the Dutch companies to try to return the Netherlands to the use of voting machines?
Mike Lindell	00:48:43:1 2	00:48:57:1 0	
Clint Curtis	00:48:57:1 2	00:49:00:0 4	Of course not. They're going to try and sell all day long, you know.
Mike Lindell	00:49:00:0 4	00:49:08:1 9	So it's. And the Netherlands who got rid of it? Smartmatic. So they're still trying to take over the country that got rid of it. So they have their fair elections.
			Right. And they're going to keep doing that. They keep pushing them here, pushing them there. I mean, in Florida, we actually made a deal to get rid of the dealers, got rid of them. Right. And they came in with the scanners thereafter. And now in Florida, it is illegal to count the paper. Everything has to be sent through the scanner.
Clint Curtis	00:49:08:2 1	00:49:28:2 3	
			You cannot count the paper illegal. Even the supervisor of elections. Privately. It is illegal for him to count the paper. In Florida, it is illegal to test a voting machine any way that the voting machine company doesn't tell you how to test it.
Mike Lindell	00:49:49:0 4	00:49:50:0 8	I didn't even know that one.
Clint Curtis	00:49:50:0 8	00:49:51:2 3	Does anyone here? The Volkswagen.
Mike Lindell	00:49:52:0 3	00:49:52:1 7	Of Florida?
Clint Curtis	00:49:52:2 0	00:50:19:0 5	Yeah. Anyone here? The Volkswagen case. Okay. They had the Volkswagens out there, right? And they were getting. They were diesel, but they were getting fantastic mileage. Right. And they

passed all of their emission tests because they were cheating. They knew when they were hooked up to the machine and they knew when they were being tested. So these college kids, not knowing that they could test it some other way, actually tested it on the road and found out that it was completely off.

The reason it ran so good is because of just dumping stuff in the in the air. So Volkswagen had to settle billions of dollars because basically they had made their machine attuned to when it was being tested and to work right when it's being tested and worked differently, when it's not. You can do that with any computer. You can do with any machine.

Clint 00:50:19:0 00:50:39:1
Curtis 6 7

Clint 00:50:39:1 00:50:41:1
Curtis 7 1

It knows what's going on.

Mike 00:50:41:1 00:50:42:0
Lindell 3 7

Well.

Clint 00:50:42:0 00:50:47:2
Curtis 9 0

It knows when the elections are real, it knows what day it is. It can do anything it wants to do.

Mike 00:50:47:2 00:50:48:1
Lindell 2 4

Right?

Clint 00:50:48:1 00:50:49:2
Curtis 6 2

So get rid of them. Right.

Mike 00:50:49:2 00:51:13:1
Lindell 2 6

So, so I don't know if here's what I want to tell you all. Clint gives us hope. Where with our voice. You got to all bring this back. You got to never stop talking about this day, ever week. Because if you'll get the call to action tonight. But I'm telling you. Are you watching? You got to tell y'all.

Mike 00:51:13:1 00:51:22:2
Lindell 7 2

We need the people to know about what we're going to do. We're going to come in from the. Hey, I got a loud mouth. Clinton's willing to be a loud mouth, right?

Clint 00:51:23:0 00:51:25:2
Curtis 3 2

Yeah. Okay.

Mike 00:51:26:0 00:51:53:1
Lindell 0 4

Kind of got to go. We're going to go to the higher ups out there. He says he's got all the he's even got Harry Hershey. Right. Who actually now follow this. He's in the movie Kill Chain with my secretary or I mean, my, Amy Klobuchar, senator from Minnesota. She has her booth right outside of mine at the state

fair, Minnesota State Fair, and, Kamala Harris, they were all in the movie Kill Chain and what, like 2018?

Mike 00:51:53:1 00:52:14:0
Lindell 9 1

That's why I couldn't believe it. I'm watching. They're all in there going, there's. We can't use machines. And Harris when they're vulnerable. Whatever. Well, he was also at the cyber symposium. And then we heard Maryland tied up there in New Hampshire, where he was looking at what went on in New Hampshire. But for some reason, he didn't want to talk about it or whatever went on up there.

Mike 00:52:14:0 00:52:35:1
Lindell 3 8

So this is what we have is where we have we have to, you know, you can't. He probably, who knows, probably has fear going, boy, I'm okay over here. You know, you got even, like Halderman, you know, with that report and, you know, and different things where you have Democrats here and Republicans here, all I'm saying is he's okay up there.

Mike 00:52:35:2 00:52:59:1
Lindell 2 3

He's not sounding the alarm even as much as he wasn't 18, because he's one he's a Democrat. Now. The Republicans aren't sounding the alarm and they're their biggest blockers. You guys got to understand they're the biggest blockers we have right now in this country. Does that tell you there's some kind of unit party here is some entity that's taking our votes from us and it's machines.

Mike 00:52:59:1 00:53:23:2
Lindell 5 0

They have to go. Clint, is there any other tell us what you're told. The Netherlands. Is there any other solution? Obviously you're an expert in the case and we're going to blaming you for starting all these algorithms. But, but the what would be is there any other solution if someone comes you know what let's she was blockchain and we're going to use a computer and we're all going to stare out.

Mike 00:53:23:2 00:53:25:0
Lindell 0 4

Is there any other solution.

Clint 00:53:25:0 00:53:32:1
Curtis 6 4

There is no other solution. You have to get rid of the machines. Hand-Count paper ballots at the precinct level?

Mike 00:53:32:1 00:53:35:0
Lindell 6 5

Yes. No. Should everybody,

Clint 00:53:35:0 00:53:56:2
Curtis 7 1

Record that so that everybody can count it themselves? Because the verification important. Don't let them take the boxes home, you know, I mean, I don't know if you're watching 2004, in Ohio, they had to file a bunch of lawsuits in order to be able to recount

it. Ten people going to jail because they were matching the ballots to the recount.

Clint 00:53:56:2 00:53:57:1
Curtis 3 2 So.

Mike 00:53:57:1 00:53:58:1
Lindell 4 4 Well, you just said.

Because that's your job. And if it doesn't match, you didn't do your job. Right? Right. So we're letting the guy that's going to give you blame for the failure to do the investigation, to prove he did a good job. That only makes sense.

Clint 00:53:58:1 00:54:14:2
Curtis 8 1

That's exactly right. What you just said, though. No, I never I never asked the plan. He said two things there that I've been telling you all hand counted paper ballots hand county in front of. You're not you're going back in time, but you're adding one thing to it. These little cameras are cameras, so we can all watch like we watch City Council meetings live again.

Mike 00:54:14:2 00:54:37:0
Lindell 3 4

Right? You can watch live anywhere. You put a couple cameras up that is the audit. If it doesn't match, you go rerun the cameras. Okay? I was just in the back and, And you're talking we're talking about commissioners. So you go to them and you say, hey, let's get rid of these machines. And they go, oh, it's going to take so long to count things.

Mike 00:54:37:0 00:55:00:0
Lindell 4 3

France did 70 million people and they counted in an hour and a half. We have a little more than double that, you know. Doesn't matter if it even would take three days to count, because I'm sure we have enough Democrats and Republicans like it used to be, both in the Roman that the people, all of us unite and say one, two everybody see agree.

Mike 00:55:00:0 00:55:22:1
Lindell 5 6

Mike 00:55:22:1 00:55:24:2
Lindell 7 2 Three you agree? Clint.

Clint 00:55:25:0 00:55:29:0
Curtis 0 3 Absolutely. And if he doesn't think he got the go when he counted himself.

And then you guys realize you can see your own number, then you can't see your name, you can see your vote. Then go by. There went my vote. My exact vote. Yep. It's there. It was there. True. I voted for and Clem would be voting for Biden again, right? Yeah, I like Biden.

Mike 00:55:29:0 00:55:46:1
Lindell 8 5

Clint Curtis	00:55:46:1 5	00:55:53:2 1	What's wrong with him? I'm guessing you guys might be voting for the other guy. I'm not sure.
			You guys, this is a mini miracle. This is what, two weeks ago? And I'm telling you, the media cannot bear this anymore and say other. It's a conspiracy about these machines. This guy wrote the first algorithm and he's and he's going, hey, we can't use this.
Mike Lindell	00:55:53:2 3	00:56:16:1 6	And he's a Democrat. You can't make this up. God sent us a miracle, Clint.
			You okay? Well, actually, he's a miracle. I've been doing this 20 years, and I haven't made 50ft with the progress this guy could put over the top.
Clint Curtis	00:56:16:1 8	00:56:29:0 1	
			Well, Clint, thank you. And we're going to you're going to be seeing a lot of us two together on the news. Wait a minute.
Mike Lindell	00:56:29:0 3	00:56:40:1 7	Maybe Fox News. Would you come on Fox Friends if they had a son?
Clint Curtis	00:56:40:1 9	00:56:41:1 7	Why not?
			You hear that, Sean Hannity? How about this? How about we do a call out to. We'll start with, say, let me. We don't have a chance of Fox News, Salem Media, Salem Media. I'm calling out to the executives right now. This is my call out to you. You cannot, from this day forward, if you don't report this day of this year, this event that didn't happen, and this is just New Salem Media.
Mike Lindell	00:56:41:1 9	00:57:12:0 1	
			And then you know what? We'll see what will happen with all. When you say on this council and you make it, you're making revenue slips off my pillow. You better report this news. That's all I'm saying.
Mike Lindell	00:57:12:0 3	00:57:23:0 9	
			And really, it's up to you guys. You have to do the hard work. You know, I can get the Democrats there already. Mostly there. They may be a little back office right now, but I can pull them back in. But you guys have to get the hard people.
Clint Curtis	00:57:23:1 1	00:57:38:0 4	
			They can get you the people. And this will get you the people spreading the word to watch this. But it's the media. We need help with the media. If you can get to the left media, well, they won't attack us together. That's what I'm counting on right away.
Mike Lindell	00:57:38:0 6	00:57:56:1 4	Won't it be something? I'll bet you we get the left media pulled over together first.

Mike Lindell	00:57:56:1 4	00:58:14:0 9	I really do. You know the other ones. How are they going to bash? You? Can't wait till the headlines tomorrow. We need balance. Turn on us for everybody. Clint Stern. And did you know he wrote the first algorithm? But then we stopped it back then we have different machines. Yeah, they're out of Omaha, Nebraska.
Clint Curtis	00:58:14:1 1	00:58:34:1 7	Yeah, you guys can do it, though. You really can. If you can get the Republicans to say they want hand-count of paper ballots, don't go into all the other stuff, you know, don't go into little peripherals. We can argue about that later. Absolutely. Just get rid of the things we can agree on. Get it done, knock it out, and then we'll argue again.
Clint Curtis	00:58:34:2 2	00:58:35:1 2	Right?
Mike Lindell	00:58:35:1 3	00:58:38:0 2	That's right, that's right. God bless.
Clint Curtis	00:58:38:0 4	00:58:39:0 9	Those hands. Until then.
Mike Lindell	00:58:39:1 1	00:58:58:1 1	Mark, one thing I like when he said don't talk about the other. Just focus on this. Because one of the things that happened also in Louisiana, I didn't finish the story about the guy that had the handicap. I was with another guy and he's here and we were out in Nevada. We actually for the sheriff sitting out there, and he came up to me.
Mike Lindell	00:58:58:1 1	00:59:17:1 6	He goes, well, we're getting it all figured out for the paper ballots and stuff. For the handicap, we're going to use braille ballots. I going to what? I go, what about if they have other handicaps where they can't even get their, you know, their leg, no legs, no arm, whatever, you know what I mean? And I said, here's what we do with that.
Mike Lindell	00:59:17:1 8	00:59:35:0 8	Every law is different on that anyway. In every state that has to stay wherever the law is, you know, whatever that is, if there's a machine there, that's the way it is right now, that that is the thing that have the legislatures will have to change that. Right? That's not the smoking gun. The smoking gun is terminate the machines.
Clint Curtis	00:59:35:0 8	00:59:36:1 3	Right.

Mike	00:59:36:1	00:59:54:1	And that's what we're going to do. Thank you. God bless you, sir.
Lindell	5	6	Thank you. Let's give him the biggest hand of the baby. Oh.
